

10 Reasons

Why you should use **ArchestrA Workflow**

invenSYS
Operations Management

Real Collaboration Real-Time Results.™

Leverage Your Existing Invensys Investments

Enable Real Collaboration
with ArchestrA Workflow

- #1** Real time **process institutionalization**
Ensure that processes are adhered to, organization- wide, and in real time, by making your unique practices part of your standard operating procedures.
- #2** Enable plant wide **collaboration**
Stakeholders get context specific information and ensure timely concurrent activities are executed.
- #3** Proliferate **best practices**
Good manufacturing practices can be made "system of record" to ensure compliance of operations, replication of optimum procedures, and variations minimized.
- #4** Ensure **comprehensive compliance management**
Meticulously maintain audit trails, eliminate messy paperwork while concurrently, ensuring work processes are streamlined.
- #5** Schedule **regular assessments**
Ensure asset excellence with system based, timely assessments of equipment. Contribute to effective utilization, uptime, and corrective actions.
- #6** Dynamic **process escalations**
Automated escalations ensure rapid issue resolution and better productivity excellence.
- #7** Process **agility**
Rapidly design, execute and optimize processes – from the plant floor to the top floor.
- #8** Closed loop **optimization**
Establish real-time feedback between design and process execution, ensuring process optimization and iterative improvements.
- #9** Promote **innovation**
Streamline processes, proliferate best practices and increase manufacturing excellence, achieve greater ability to innovate and stay ahead of the competition.
- #10** **Empower employees** to make the right decision
Every employee in the organization is empowered to make the right decision, to ensure maximum productivity and increase customer satisfaction.
