MES Quality
Training Syllabus

COURSE INFORMATION
LENGTH: 3-DAYS

The MES Quality Training course is a 3-day, instructor-led class designed to provide a fundamental understandingof the features and functionality of Wonderware MES Software/Quality. The course provides lectures and hands-on labs to supply and reinforce the knowledge necessary to use Wonderware MES Software/Quality to address the configuration and deployment of a data collection system, which allows for the analysis and reporting of Quality Management data using a Sample Recording Object.

Objectives

- Implement the concepts of MES Software/Quality
- Describe the relationship of Wonderware MES Software/Quality to MES Software/Operations
- Use the Wonderware MES Client application to define Quality Management Specifications including: frequency, sample plans and characteristics
- Configure a Sample Recording Object
- Build the Sample Viewer Control
- Build a Control Chart Interface using ArchestrA graphics
- Use Wonderware Information Server to view ArchestrA reports

Prerequisites

- Completion of an Application Server course
- Completion of an InTouch for System Platform course
- Completion of an MES – Operations course
- Manufacturing industry experience
